JAI NARULA

Data Analyst | SQL | Python | Power BI | Gemini AI

New Delhi | +91 70424 26504 | jai.narula08@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Final-semester BBA Business Analytics candidate (SRM University, Jul 2026) with hands-on experience in CRM analytics, KPI dashboards, and funnel reporting. Engineered and deployed **NIKA** — a full-stack AI analytics platform with 20+ institutional users, selected among 500+ submissions at NIAT 2025. Ranked **Top 250 Google Student Ambassador nationally** (10,000+ pool). Proficient in SQL, Python (Pandas), and Power BI.

TECHNICAL SKILLS

SQL & Python: SQL (Joins, Window Functions, CTEs, Subqueries, Aggregations), Python (Pandas, NumPy, Matplotlib, Seaborn), Data Wrangling, Statistical Analysis

BI & Visualization: Power BI (DAX, Power Query, Data Modeling), Excel (Pivot Tables, XLOOKUP, VBA, Macros), Google Analytics, Dashboard Development

Analytics: EDA, KPI Tracking, Funnel Analysis, Cohort Analysis, Variance Analysis, Root Cause Analysis, ETL Pipelines, Stakeholder Reporting, Ad Hoc Reporting

Tools & CRM: LeadSquared, Git/GitHub, MS Office Suite, Gemini AI

PROFESSIONAL EXPERIENCE

Graduate Trainee (Sales & CRM Analytics) | Jaro Education (EdTech) *Jan 2026 – Present*

- Orchestrated end-to-end CRM lead pipeline across 3+ EdTech verticals in LeadSquared — segmented 100+ weekly leads by program fit, budget tier, and enrollment intent; diagnosed conversion patterns by lead source to sharpen outreach prioritization and boost pipeline efficiency.
- Architected a monthly Power BI dashboard to track personal KRAs and prospect conversion metrics — visualized outreach volume, conversion rate trends, and pipeline stage movement; leveraged insights to drive self-directed performance improvement and refine pitch strategy.
- Drove 250+ daily outreach touchpoints sustaining 2.5+ hours of prospect talk time — tracked 6 daily qualified conversions, benchmarked closure rates across lead sources, and iteratively refined personal lead scoring criteria to maximize conversion yield.

Google Student Ambassador | Google India (Stipend) *Aug – Dec 2025*

- Secured Top 250 rank nationally among 10,000+ ambassadors — cultivated and scaled a Google community of 500+ students; spearheaded 10+ technology workshops and led 3 cross-campus events (200+ participants each) accelerating AI and data literacy adoption.
- Engineered and launched a GID-linked Gemini prompt launcher (open-sourced on GitHub) — deployed to 500+ community members to drive verified Gemini engagement; tracked prompt execution metrics and reported performance data directly to Google's ambassador program team.

KEY PROJECTS

NIKA — AI Analytics Platform | *Python, Pandas, Gemini AI, REST API, ETL, Git/GitHub*

- Architected a full-stack AI analytics web application integrating Gemini AI, ETL pipelines, and a live Power BI-style dashboard — enables users to upload datasets, execute guided data cleaning, receive automated statistical analysis, and extract natural-language insights via AI-driven reporting.
- Secured adoption by university faculty and college administration for institutional performance tracking — shortlisted among 500+ submissions at NIAT 2025 (OpenAI Academy x NxtWave Hackathon), achieving 20+ active institutional users post-deployment.

Blinkit Regional Sales Dashboard | *Power BI, DAX, Power Query, Excel*

- Constructed a state/zone-level KPI scorecard in Power BI using a star schema data model (5 tables) and DAX time intelligence — delivered executive views spanning revenue trends, order fulfillment rate, delivery SLA compliance, and RFM customer segmentation for sales, operations, and marketing stakeholders.
- Consolidated 5 data tables into a single self-serve dashboard — eliminated manual reporting overhead and enabled cross-functional stakeholders in sales and operations to independently access KPIs on demand.

Netflix Content EDA Pipeline | *Python, Pandas, NumPy, Matplotlib, Data Validation*

- Engineered a modular Python EDA pipeline processing 5,000+ Netflix records — automated data validation, outlier detection, and multi-step cleansing; uncovered a 3x spike in international originals post-2015 and genre-level rating shifts, surfaced as analysis-ready DataFrames for downstream visualization.

EDUCATION

BBA — Business Analytics | CGPA: 7.91 | SRM University *Aug 2023 – Jul 2026 (Expected)*

Diploma in French Language — B1 (In Progress) | Alliance Française Delhi *Aug 2024 – May 2026*

CERTIFICATIONS & RECOGNITION

Core: Oracle Cloud AI & Data Science Professional (valid 2027) | Google Advanced Data Analytics | Google Gemini Certified (valid 2028)

Simulations: KPMG Data Analytics Consulting (Forage) | PwC Power BI Virtual Case Experience (Forage)

Languages: English (Fluent) | Hindi (Native) | French (B1 — Alliance Française Delhi)
